

Resources Download Guide - পড়াশোনা App

Required Resources to Download

1. Icons and Images

Download these icon packs and extract to the specified folders:

Material Design Icons (Free)

Download URL: <https://fonts.google.com/icons>

- **Download:** timer, bar_chart, calendar_today, person, add, edit, delete, check, close, menu, settings, notifications, trophy, star, lock, apps, trending_up
- **Where to put:** /app/src/main/res/drawable/
- **How to use:** Export as VectorDrawable (XML) with 24dp size
- **Naming convention:** ic_timer.xml, ic_stats.xml, etc.

Additional Icons Needed:

1. App Icon (Launcher)

- URL: Create using <https://icon.kitchen> or <https://romannurik.github.io/AndroidAssetStudio/>
- Size: 512x512px
- **Where to put:** /app/src/main/res/mipmap-xxxhdpi/ic_launcher.png (and all other densities)

2. Bottom Navigation Icons

- timer icon → ic_timer.xml
- stats icon → ic_stats.xml
- calendar icon → ic_routine.xml
- person icon → ic_profile.xml

3. Achievement Badges

- URL: <https://www.flaticon.com> (search for "badge", "trophy", "medal")
- Free account required
- **Where to put:** /app/src/main/res/drawable/
- Names: badge_streak_7.png, badge_streak_30.png, badge_100_hours.png, etc.

2. Sound Files

Study Sounds

1. **Notification Beep** (Already included: `beep.wav`)

2. Level Up Sound

- URL: <https://mixkit.co/free-sound-effects/notification/>
- Download: "Level up notification"
- **Where to put:** `/app/src/main/res/raw/level_up.mp3`

3. Achievement Sound

- URL: <https://mixkit.co/free-sound-effects/win/>
- Download: "Achievement notification"
- **Where to put:** `/app/src/main/res/raw/achievement.mp3`

4. Study Music (Optional)

- Lo-fi beats: <https://www.youtube.com/audiolibrary>
- **Where to put:** `/app/src/main/res/raw/lofi_1.mp3`

3. Fonts (Optional but Recommended)

Google Fonts - Poppins (Modern, Clean)

- URL: <https://fonts.google.com/specimen/Poppins>
- Download: Regular, Medium, SemiBold, Bold
- **Where to put:** `/app/src/main/res/font/`
- **How to use in XML:**

```
android:fontFamily="@font/poppins_regular"
```

Bengali Font (For better Bangla support)

- URL: <https://fonts.google.com/specimen/Hind+Siliguri>
- Download: Regular, Medium, SemiBold, Bold
- **Where to put:** `/app/src/main/res/font/`

4. Lottie Animations (Makes app more modern)

Free Lottie Files:

- URL: <https://lottiefiles.com/featured>
- **Recommended animations:**
 1. Study animation (books, reading)
 2. Trophy/Success animation
 3. Loading animation

4. Empty state animation

Where to put: `/app/src/main/res/raw/` **Naming:** `anim_study.json` , `anim_trophy.json` , etc.

How to implement in build.gradle:

```
implementation("com.airbnb.android:lottie:6.1.0")
```

5. Gradient Backgrounds

Where to create: `/app/src/main/res/drawable/`

Example - Create `bg_gradient_primary.xml` :

```
<?xml version="1.0" encoding="utf-8"?>
<shape xmlns:android="http://schemas.android.com/apk/res/android">
    <gradient
        android:angle="135"
        android:startColor="@color/gradient_start"
        android:endColor="@color/gradient_end"
        android:type="linear" />
</shape>
```

6. Additional Drawable Resources to Create

1. Rounded Background (`bg_rounded_white.xml`)

```
<?xml version="1.0" encoding="utf-8"?>
<shape xmlns:android="http://schemas.android.com/apk/res/android">
    <solid android:color="@color/white"/>
    <corners android:radius="16dp"/>
</shape>
```

Where to put: `/app/src/main/res/drawable/`

2. Subject Color Chips

Create multiple colored backgrounds for subjects:

- `bg_subject_blue.xml`
- `bg_subject_green.xml`
- `bg_subject_purple.xml`
- `bg_subject_orange.xml`

3. Button Ripple Effect (`ripple_primary.xml`)

```
<?xml version="1.0" encoding="utf-8"?>
<ripple xmlns:android="http://schemas.android.com/apk/res/android"
    android:color="@color/primary_light">
    <item android:drawable="@color/primary"/>
</ripple>
```

7. Menu Resources

Bottom Navigation Menu - Already will be created in code **Options Menu** - For settings and actions

8. Charts Library (MPAndroidChart)

Already included in build.gradle No additional downloads needed.

9. Third-Party Libraries Resources

All handled by Gradle dependencies, but you need internet for first build.

Quick Setup Instructions

Step 1: Create Icon Files

1. Open <https://fonts.google.com/icons>
2. Search for each icon name
3. Click icon → Download → Select "Android"
4. Choose VectorDrawable (XML)
5. Download and place in `/app/src/main/res/drawable/`

Step 2: Create App Launcher Icon

1. Go to <https://icon.kitchen/>
2. Upload your tomato image or design new icon
3. Add "পড়াশোনা" text if desired
4. Download adaptive icon pack
5. Extract and copy all `mipmap-*` folders to `/app/src/main/res/`

Step 3: Sound Files

1. Keep existing `beep.wav` (already present)
2. Download level up and achievement sounds
3. Place in `/app/src/main/res/raw/`
4. Ensure files are lowercase, no spaces: `level_up.mp3` , `achievement.mp3`

Step 4: Fonts (Optional)

1. Download Poppins and Hind Siliguri from Google Fonts
2. Create `/app/src/main/res/font/` directory
3. Place .ttf files there
4. Reference in styles: `@font/poppins_medium`

Step 5: Create Missing Drawables

Navigate to `/app/src/main/res/drawable/` and create:

1. **bg_rounded_white.xml** - Rounded white background
2. **bg_rounded_primary.xml** - Rounded primary color background
3. **bg_gradient_primary.xml** - Gradient background
4. **ic_launcher_foreground.xml** - Launcher icon foreground
5. **bg_subject_*.xml** - Different colored backgrounds for subjects

Resource Naming Convention

Icons

- Format: `ic_[name].xml`
- Example: `ic_timer.xml` , `ic_add.xml` , `ic_delete.xml`

Backgrounds

- Format: `bg_[description].xml`
- Example: `bg_rounded_white.xml` , `bg_gradient_primary.xml`

Sounds

- Format: `[name].mp3` **or** `[name].wav`
- Example: `beep.wav` , `level_up.mp3` , `achievement.mp3`

Animations

- Format: `anim_[name].json`
- Example: `anim_study.json` , `anim_trophy.json`

Fonts

- Format: `[fontname]_[weight].ttf`
- Example: `poppins_regular.ttf` , `poppins_bold.ttf`

Complete Resource Checklist

Icons (24dp, VectorDrawable)

- ☐ ic_timer.xml
- ☐ ic_stats.xml
- ☐ ic_routine.xml
- ☐ ic_profile.xml
- ☐ ic_add.xml
- ☐ ic_edit.xml
- ☐ ic_delete.xml
- ☐ ic_check.xml
- ☐ ic_close.xml
- ☐ ic_play.xml
- ☐ ic_pause.xml
- ☐ ic_stop.xml
- ☐ ic_settings.xml
- ☐ ic_notifications.xml
- ☐ ic_trophy.xml
- ☐ ic_star.xml
- ☐ ic_lock.xml
- ☐ ic_apps.xml
- ☐ ic_trending_up.xml
- ☐ ic_calendar.xml
- ☐ ic_subject.xml

App Icons (Multiple Densities)

- ☐ mipmap-mdpi/ic_launcher.png (48x48)
- ☐ mipmap-hdpi/ic_launcher.png (72x72)
- ☐ mipmap-xhdpi/ic_launcher.png (96x96)
- ☐ mipmap-xxhdpi/ic_launcher.png (144x144)
- ☐ mipmap-xxxhdpi/ic_launcher.png (192x192)
- ☐ mipmap-*/ic_launcher_round.png (Same sizes)

Sounds

- ☒ beep.wav (Already included)
- ☐ level_up.mp3
- ☐ achievement.mp3
- ☐ notification.mp3 (optional)

Badge Images (PNG, 512x512)

- ☐ badge_streak_7.png
- ☐ badge_streak_30.png
- ☐ badge_100_hours.png
- ☐ badge_500_hours.png
- ☐ badge_perfect_week.png
- ☐ badge_early_bird.png
- ☐ badge_night_owl.png
- ☐ badge_focused.png

Background Drawables (XML)

- ☐ bg_rounded_white.xml
- ☐ bg_rounded_primary.xml
- ☐ bg_gradient_primary.xml
- ☐ bg_gradient_secondary.xml
- ☐ bg_subject_blue.xml
- ☐ bg_subject_green.xml
- ☐ bg_subject_purple.xml
- ☐ bg_subject_orange.xml
- ☐ bg_subject_pink.xml

Fonts (Optional)

- ☐ poppins_regular.ttf
- ☐ poppins_medium.ttf
- ☐ poppins_semibold.ttf
- ☐ poppins_bold.ttf
- ☐ hind_siliguri_regular.ttf
- ☐ hind_siliguri_medium.ttf
- ☐ hind_siliguri_semibold.ttf
- ☐ hind_siliguri_bold.ttf

Quick Links Summary

Icons: <https://fonts.google.com/icons>

App Icon Generator: <https://icon.kitchen/>

Sound Effects: <https://mixkit.co/free-sound-effects/>

Fonts: <https://fonts.google.com/>

Lottie Animations: <https://lottiefiles.com/>

Badge Icons: <https://www.flaticon.com/>

Color Palettes: <https://coolors.co/>

Notes

1. **All resources must be lowercase** - Android requires lowercase filenames
 2. **No spaces** - Use underscores: `level_up.mp3` **not** `level up.mp3`
 3. **VectorDrawables for icons** - Scalable and smaller file size
 4. **PNG for photos/badges** - Use appropriate compression
 5. **MP3 for sounds** - Smaller than WAV
 6. **Optimize images** - Use <https://tinypng.com/> before adding to project
-

After Adding Resources

1. **Sync Gradle** - Click "Sync Now" in Android Studio
2. **Clean Build** - Build → Clean Project
3. **Rebuild** - Build → Rebuild Project
4. **Run App**

If get resource not found errors, check:

- File names are correct and lowercase
- Files are in the correct directory
- No typos in XML references
- Gradle sync completed successfully
